

There are 110 families in Kollel Chatzos, and the families of these same avreichim have nothing to eat for Yom Tov. They are groaning under their debts.

An avreich who is moser nefesh every night of the year for Torah, with a house full of children — and they have nothing to put on the table for the Yomim Tovim.

\$1,200

for one family

to have what to eat for Yom Tov b'derech kavod

And another \$100 as a special gift for the avreich's wife, hers alone.

With this money you are hosting a poor family for Yom Tov. The Zohar HaKadosh says that the Ushpizin do not enter a man's sukkah until they see a poor man sitting at his table.

They are your guests for Yom Tov.

Take one family

They are waiting for you.
